Introduction and Scope

The Youth Engagement Academy (YEA) platform aims to involve young people in EU policy-making by offering skills-building activities and campaigns. This 24-month project will engage young people with fewer opportunities, building their critical thinking and understanding of European democracy and decision-making processes. Through youth-led campaigns, discussions with policymakers, and training, the platform will help youth develop analytical skills, combat populism, and foster participation in European political life.

The project will bridge the gap between youth and EU decision-makers by creating a space for open dialogue, encouraging participation in European procedures and policymaking.

The Youth Engagement Academy platform serves as a hub for young people's engagement in European policy-making. The platform also serves as a resource for youth organizations, offering a space for collaboration and knowledge-sharing.
